Permit No.: WQCS00284

Name: Brunswick County

---

In the year 2009-2010, the County of Brunswick's Public Utilities Wastewater Collections System experienced continued growth. Twelve sewer pump stations were added to the system, bringing the total to 124 County-owned stations.

A Residential Grinder Pump Station Repair Program is in its second year and the results have been positive. The County heavy repair and maintenance group continued to upgrade and repair the older pump stations to increase reliability. Over 10% of the County sewer system was cleaned and inspected as required with completion by December 2009.

Brunswick County Collections Division had 11 reportable sewer spills in the year 2009-2010. The high number is due to sewer and gas line transmission projects resulting in damage by contractors to existing sewer force mains. As the system continues to grow we are committed to provide the customers of Brunswick County with the highest level of service possible.

It is the County's intent to provide a copy of this report to the State of North Carolina by mail in July 2010 and to our customers. The report will be available on the County website ([www.brunswickcountync.gov](http://www.brunswickcountync.gov)) and published in *The Brunswick Beacon* and *The State Port Pilot* County newspapers.

I hereby certify this report is complete and accurate to the best of my knowledge.

Steve M. Hlastala  
Collections System Superintendent/Operator in Responsible Charge
